BRINGING YOUR DESIGNS TO LIFE

Creative Interior Imagery

# ART WORKS!

Creative Interior Imagery is here to bring your ideas to life! Today's world is visual—and what sets you apart from the herd is your ability to grab attention, create an image, display imagination, and build a brand. We can help you make it happen—with artwork selection and installation; graphic signage and environmental treatments; custom framing; eye-catching displays and so much more.

Is artwork an important part of your organization's image? We work with clients to discover the right places where artwork will work—creating excitement for employees and visitors alike. Our creative team will help recommend and select, and we will frame and install in just the right places. When it comes to mood, style and morale—art works!

# Architectural Graphics

Architectural signage and graphics are hardworking elements that can build brand identity, boost employee engagement, and help visitors find their way. Great architectural signage and environmental graphics do all this while complementing the design of a space and meeting your objectives.

Creative Interior Imagery has helped corporations, hospitals, hotels, schools, churches, and many other clients use beautifully detailed graphics to help tell a brand story and define a space.

# Art Consultation

We first meet with our clients to discuss which areas of their facility have a need for artwork to make it more appealing to customers and visitors. Next, our consultants will use their knowledge of art and design to select pieces of art that will create the overall mood our client desires to achieve. We then install the artworks or place artistic sculptures in such a way that will make them a natural, yet evocative addition to the building's decor.

# Art Installation

Although it is popular today to lean pictures on end tables or other similar spaces, the most common home for frames is still on the wall. The two most important considerations when hanging anything is the visual placement and making sure it is hung securely for your safety (as well as the safety of the framing itself and anything around it). Even the most beautiful pieces of art can be diminished in its appeal when poorly hung.

# Cut Vinyl

Our Vinyl Cutting is a specialized service that is perfect for automobiles, storefront signage, and wall graphics. It is a must-have, attention-grabbing advertising tool that is incredibly versatile! Cut Vinyl provides long-term durability and photographic image quality. Vinyl lettering works with sleek contemporary typefaces, trendy embellished hand-lettering, and just about anything in between! Because of its versatile nature, this material can be utilized for a large variety of applications and styles that are guaranteed to last.

# Displays & Signage

Effective displays & signage will not only let potential customers know that you exist, but also what you do and why they should choose you. Because we know how important the role signage plays in customer acquisition, we make a concentrated effort to make sure that we not only have the best options available to you, but also that each piece we make meets or exceeds your quality expectations. Never settle for second-best when it comes to how you reach out to your patrons - they will notice the difference.

# Framing

Regardless of what you choose to have framed, whether it is a favorite piece of art, a mirror, an object inherited from an ancestor, or anything else, it will add interest to your space.

With thousands of frames and mats to choose from, the design possibilities are endless! By mixing and matching them in different combinations, we can hand-pick frame designs to accentuate the best attributes of any piece of art.

# Graphic Design

Creative Interior Imagery is confident in fulfilling your businesses' creative needs. We have provided dynamic, eye-catching graphic solutions for our every customer. We can handle pretty much any custom idea or challenge you may have—just let us know what you're looking for! We also provide a full line of printing and installation services as well, allowing us to take you from idea to finished product, all under one roof. This allows us to keep the quality top-notch the whole way to your door!

# Graphic Installation

One of the most important aspects of your graphic needs is the installation; the quality of the project means nothing if at the end of the project there is an unsatisfied client. Our staff is dedicated to getting the job done correctly the first time. Our quality, professionalism, and outstanding workmanship are second to none because we aim for flawless perfection with every installation that we do. We will also coordinate your installations to fit your schedule with the least amount of interruption for your business.

# Large Format Printing

At Creative Interior Imagery, we have state-of-the-art wide format printers that can easily accommodate any large format printing projects on a number of substrates including matte, luster, and fine art paper stocks. We also offer wide format printing on surfaces like vinyl banners, wall graphics, and window graphics. Our printing experts are highly knowledgeable and flexible enough to get the job done right! As a full wide format printing service, we take pride in our craftsmanship and guarantee our client's satisfaction.

# Window Applications

We offer a variety of options for window displays and privacy that can fit any size or shape window. You can select from cable suspended acrylic display systems (for easily editable content), opaque vinyl (to completely block light), frosted vinyl (to diffuse light going in or out) or perforated vinyl (which only lets light through from the brighter side).

Our vinyl options are customizable with graphics or applied plain; either option provides you with that extra level of privacy. Our acrylic display systems offer options for large display graphics, brochures, standard-size handouts and more.
